SUMMARY

Computer Science undergraduate skilled in Python, Java, and Django, with hands-on experience building full-stack style applications using object-oriented design and clean UI principles. Experienced building CRUD-driven applications with structured data management, exception handling, and input validation. Strong foundation in Object-Oriented Programming, file handling, and version control through Git and GitHub.

TECHNICAL SKILLS

Languages: Python, Java

Web & Frameworks: HTML5, CSS3, Django

Databases: SQL (fundamentals)

Tools & Platforms: Git, GitHub, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), File Handling, Exception Handling, Problem Solving

EXPERIENCE

Python and Web Development Trainee — Tap Academy

May 2025 – June 2025

Structured training program covering Python, Django fundamentals, and front-end web development.

- Completed a hands-on training program covering Python programming fundamentals, HTML, CSS, and Django.
- Built and styled web pages using HTML and CSS, applying core front-end structuring principles.
- Strengthened proficiency in Object-Oriented Programming and file handling through applied exercises.
- Developed multiple mini-projects to reinforce programming logic and problem-solving skills.
- Practiced Git and GitHub workflows for version control and collaborative development.

PROJECTS

Online Food Delivery Application

PYTHON • WEB DEVELOPMENT • OOP

User-facing food ordering application covering restaurant, menu, customer, and order management.

- Developed an online food delivery application with restaurant, menu, customer, and order management features.
- Applied Object-Oriented Programming principles to build modular, reusable, and maintainable code.
- Focused on clean UI design and efficient, user-friendly functionality.

Tech Stack: Python, HTML, CSS

Student Management System

PYTHON • DATA MANAGEMENT • OOP

Desktop application to manage student records with full CRUD functionality and data validation.

- Developed a Student Management System to manage student records with add, update, delete, and search functionality.
- Used Object-Oriented Programming and file handling for structured, persistent data management.
- Included exception handling and input validation to ensure data reliability.

Tech Stack: Python

EDUCATION

Bachelor of Engineering, Computer Science and Engineering

Srinivas University Institute of Engineering and Technology, Mangaluru, Karnataka | CGPA: 8.58/10

2023-2027

Pre-University Course (PCM CB)

Ranganatha PU College, Sira, Karnataka | 88%

2023

CERTIFICATIONS

- Python for Data Science — Ethnotech Academic Solutions
- Python Programming Certification — CODSOFT Academy
- Soft Skills Training — 10 Seconds

ACHIEVEMENTS

- Participated in Inter-College Hackathons, applying programming and problem-solving skills under time constraints.
- Served as Cultural Coordinator for the Tech-Yuva Program, coordinating student activities and event management.
